

About Us

My name is Erica Aye, and I am an African American young woman. At this point of time, I have been in the healthcare field for 15 years. I started my journey as a Medical Assistant, to Licensed Practical Nurse (LPN), to Registered Nurse (associates degree), to Registered Nurse (bachelor's degree), to now completing my master's degree in Nursing 2021. Aye Le Soin (I CARE) was established in 2020 to help individuals develop the look they desire. I experienced the same feelings. After having children, I just did not feel satisfied with my appearance. So, I realized I had to not just talk about but to actually do something. I have always had the mind set to take care of people. So, I decided to build this company to serve the ones in need. My mission is to place a smile and see the satisfaction upon their faces after providing an excellent qualitative service. Helping others comes second nature for me, so my passion will provide me the path to succeed my goal because I CARE!
