

COVID19 Protective Measures

We practice proper infection control which includes frequent cleaning & disinfection. These rules require proper disinfection of every non-porous implement prior to use. In addition, consideration of disinfection of common use surfaces such as waiting areas, massage tables, treatment devices, pens/clip boards, bathrooms etc.

Use of personal protective equipment (e.g., gloves, masks, eyewear)
Hand hygiene. Wash hands with soap and water for 30 seconds prior and post treatment to every client.

For clients have them complete COVID 19/ COLD/ FLU questionnaire, take temperature, ask them to remove personal disposable gloves they came in with, properly dispose of them, have them perform hand hygiene and require to wear a mask at all times.

Social Distancing. We prevent large amount of people in our area at the same time. If arrive to appointment early, client is required to wait outside or in their vehicle until their scheduled time of service. We service clients by appointment only.
